### **Space & Naval Warfare Systems Center Awards Contract**

CHARLESTON S.C., - SENSYS Technologies, Inc., of Newington, Va., has been awarded a \$6,341,533 firm-fixed price contract for Electronic Threat Warning Detection Systems for the Privateer program. The Privateer Special Operations Platform conducts active and covert coastal surveillance and command, control, communications in support of amphibious warfare, mine warfare, maritime defense, Naval control/protection of shipping and counter-narcotics missions. Special Operations Platform's are designed as a rapidly deployable and cost effective method of supplying an area commander or Government agency with timely and accurate tracking and identification of all airborne, surface and sub-surface electronic activity in an operating area. This contract contains an option which, if exercised, will bring the total cumulative value of the contract to \$9,855,852. Work will be performed in Norfolk, Va. (50 percent), and San Diego (50 percent), and is expected to be completed by October 2000. Contract funds are from multiple sources and will not expire at the end of the fiscal year. The contract was not competitively bid with one offer solicited and 1 offer received under solicitation N65236-98-R-0422. The Space and Naval Warfare Systems Center Charleston is the contract awarding activity (N65236-98-C-7020).
